

Seeks to understand the big picture

Observes how elements within systems change over time, generating patterns and trends

Recognizes that a system structure generates its behavior

Identifies the circular nature of complex cause and effect relationships

## Habits of a Systems Thinker

Changes perspectives increase understanding

Surfaces and tests assumptions

Considers an issue fully and resists the urge to come to a quick conclusion

Considers how mental models affect current reality and the future

Uses understanding of system structure to identify possible leverage actions

Considers both short and long-term consequences of actions

Finds where unintended consequences emerge

Recognizes the impact of time delays when exploring cause and effect relationships

Checks results and changes actions if needed: "successive approximation"
